MLOps tools

Code versioning (Git):

Model versioning (MLflow):

Data versioning (DVC):

ML orchestration (Kedro):

CI/CD (Jenkins/Gitlab):

Programming

Python, R : 5 out of 5 dots filled

C, C++: 4 out of 5 dots filled

SQL, noSQL : 4 out of 5 dots filled

DataViz

Shiny (R) : 5 out of 5 dots filled

Plotly/ggplot : 4 out of 5 dots filled

Bokeh (Py) : 4 out of 5 dots filled

Languages

French: native

English: C1

Chinese: B2

Italian: B2

Spanish: learning (A2)

Soft skills

Autonomous, creative,
agile mindset, relational
intelligence, rigorous

Activities

Audiobook, hiking,
badminton, climbing.

2022 - 2024

AI Research Scientist

Milliman, Paris

Data Scientist R&D specialized in Statistical Learning, Fairness and Interpretability

2022 - 2024

Postdoctoral researcher in statistical learning

Université de Montréal, (QC)

- **Topics:** Data science, fairness, transparency, ESG, NLP, computer vision.
- **with** Arthur Charpentier and Manuel Morales.
- **Responsibilities:** (1) Define projects / objectives, (2) create robust models with stat. guarantees and (3) supervise interns, Master's and PhD students

2019 - 2022

Data scientist

Société Générale Insurance, La défense

3 years - machine learning, statistics, NLP and computer vision.

Responsibilities: (1) Guide interns in their R&D projects, (2) assist in the training of the data science team in new AI tools, and (3) establish research partnerships

2018 - 2019

Data scientist - junior

Société Générale Insurance, La défense

scoring, model deployment and contribution to the (internal) ML platform

Apr 2018

Data scientist - intern

Société Générale Insurance, La défense

6 months - statistics and DataViz on telematic data

Education

2019 - 2022

PhD in applied mathematics - statistics

ENSAE - Institut Polytechnique de Paris

- **SCOR 2022 Award** for the best actuarial thesis.
- **Thesis title:** Semi-supervised learning in insurance: fairness and labelling
- **Topics:** Statistical learning, algorithmic fairness, NLP, insurance
- **with** Romuald Elie, Caroline Hillairet and Marc Juillard

2016 - 2018

Master's degree in applied mathematics

Sorbonne Univ. (ex-UPMC), Paris VI

Statistics and data science

2013 - 2016

Bachelor's degree in mathematics

Sorbonne Univ. (ex-UPMC), Paris VI

Intensive bi-disciplinary program in mathematics and computer science

2013 - 2016

Bachelor's degree in computer science

Sorbonne Univ. (ex-UPMC), Paris VI

Intensive bi-disciplinary program in mathematics and computer science

2015 - 2021

Summer schools (and visiting research)

- July 2021 - HEC et ENSAE (France) : ML in asset management
- March 2020 - Berkeley University (Visiting research, USA): Active learning
- July 2015 - Brown University (USA): MATLAB and numerical analysis

Teaching

2020 - ongoing

Master of Science in Artificial Intelligence Systems

EPITA

Lecturer in python (42H), machine learning (30H) and bayesian statistics (18H).

2019 - 2021

Data Science, Statistics and Learning

ENSAE

TA in python (1A), monte-carlo (2A), intro & advanced machine learning (2-3A).

2019 - 2022

Applied statistics & econometrics

ENSAE

This course supplements theoretical training by teaching ENSAE students practical skills in statistical modeling, enabling them to work with real-world data.

2019 - 2022

Data Science for Actuaries (DSA)

Institut des Actuaire

Lecturer in NLP & Deep Learning.

Notable publications

> STATISTICAL LEARNING, ALGORITHMIC FAIRNESS & TRANSPARENCY

- 2023 **Fairness guarantee in multi-class classification** [arXiv - revision](#)
- Joint work with *Christophe Denis, Romuald Elie* and *Mohamed Hebiri*.
 - <https://arxiv.org/abs/2109.13642>
- 2023 **Sequentially Fair Mechanism for Multiple Sensitive Attributes** [AAAI 2024](#)
- Joint work with *Philipp Ratz* and *Arthur Charpentier*
 - *The 38th Annual AAAI Conference on Artificial Intelligence (AAAI-24)*. <https://arxiv.org/abs/2309.06627>
- 2023 **Fairness in multi-task learning via wasserstein barycenters** [ECML-PKDD 2023](#)
- Joint work with *Philipp Ratz* and *Arthur Charpentier*.
 - *Machine Learning and Knowledge Discovery in Databases: Research Track (ECML PKDD 2023)*, 2023. <https://arxiv.org/abs/2306.10155>
- 2023 **Parametric fairness with statistical guarantees** [arXiv - revision](#)
- Joint work with *Philipp Ratz* and *Arthur Charpentier*
 - <https://arxiv.org/pdf/2310.20508.pdf>
- 2023 **Bias and explainability in image recognition** [arXiv - revision](#)
- Joint work with *Philipp Ratz* and *Arthur Charpentier*
 - <https://arxiv.org/abs/2308.11090>

> INSURANCE

- 2023 **Solving the labelling problem in Insurance** [arXiv - revision](#)
- Joint work with *Romuald Elie, Caroline Hillairet* and *Marc Juillard*.
 - <https://arxiv.org/abs/2112.09466>
- 2023 **Mitigating discrimination in insurance** [BIAS 2023](#)
- Joint work with *Arthur Charpentier* and *Philipp Ratz*.
 - *BIAS 2023, 3rd Workshop on Bias and Fairness in AI, International Workshop of ECML PKDD*, 2023. <https://arxiv.org/abs/2306.12912>

> BIOSTATISTICS & EPIDEMIOLOGY

- 2024 **Models and data used to predict the density and distribution of Ixodes scapularis (blacklegged tick) in North America: a scoping review.** [The Lancet - Am.](#)
- Joint work with *Yogita Sharma, Elda K.E. Laison, Tanya Philippsen, Junling Ma, Jude Kong, Sajjad Ghaemi, Juxin Liu* and *Bouchra Nasri*

Notable projects

> IA & SUSTAINABLE FINANCE

- 2023 - ... **Large Language Models (LLM) for sustainable finance** [Algora Lab - MILA](#)
- Joint research focused on algorithmic fairness and NLP (traditional & non-traditional with prompt engineering or conversational AI) techniques to identify Environmental, Social, and Governance (ESG) concepts.
 - <https://algoralab.ca/project/forum-inventia-jalisco-mexique-with-fair-lac/>
